

## Sermon Highlights from Sunday, February 9th

We are not dependent on what's going on out there in the dark to determine what is happening in the light.

We had something built in us (the light of Christ) that could transcend the darkness of sin out there.

Today it is easy to find the dark places, in the family chaos, financial debt , healthcare scare, and political power. We ask: Is there light in this darkness?

The world without Jesus is dark, lonely and hopeless.

Jesus ensured that the world, YES! It would stay lit.

You are the light of the world. Jesus answer to keep the world lit is **you!**

What determines the degree of your bright shining light?

First, it radiates Christ

Second, if it is intentionally visible

Third, if it is capable of producing your good deeds so that they in darkness see clearly and give glory to God in Heaven.

You are the blessing to the world, in Him.

Live a life of remarkable purity, faithfulness, piety, love and generosity. That should get their attention lights of the world.
